

MOBILE GRAND STAND

By I+D+i Actiu

**AGI
LE**

An innovative grandstand concept that makes it possible to redesign the space quickly and efficiently. Its modular nature and the incorporation of castors easily dynamises the collaborative workspace, reconfiguring areas in which to share ideas and develop joint projects. It offers each team the possibility of adapting its space to its needs and work methodology, and can therefore be configured as a bench, platform or shelf, depending on the moment. Each module also incorporates additional integrated storage space and can be complemented with additional poufs that provide greater comfort.

Design goes beyond aesthetics: innovation, space and furniture go hand in hand to create environments that are friendlier, more comfortable and more motivating for people: environments that are more dynamic, fresh, creative, ergonomic and functional.

A business philosophy in which design is part of our DNA, as we apply it to every facet of the company: products, architecture, projects, brand, communication, work spaces ...
